About the Virginia Tech Program in Real Estate

The B.S. degree in Real Estate at Virginia Tech is a comprehensive, interdisciplinary academic program that builds on existing strengths in five colleges. The major offers Real Estate courses that integrate the material students learn in disciplinary courses such as finance, law, and property management through practical experiences within the academic program. The integration occurs through a university-industry partnership where real estate professionals are actively involved in students' education through guest lectures and mentoring experiences and by providing internship opportunities.
