Real Estate for Residential Properties
B.S. Real Estate

OUR STORY
The Blackwood Department of Real Estate at Virginia Tech provides the best interdisciplinary real estate education in the country - from project planning through management of properties, conducts cutting-edge research, and provides relevant outreach for the real estate industry.

OUR VISION
The B.S. in Real Estate degree is a unique and comprehensive, interdisciplinary academic and industry collaboration that develops real estate industry leaders by transcending boundaries and building on university strengths in building construction, business, design, economics, engineering, entrepreneurship, environment, law, planning, and property management.

OUR MISSION
The mission of the Blackwood Department of Real Estate is to prepare students to enter and succeed in the wide variety of professions that encompass the real estate industry, to engage in life-long learning, and to understand ways in which real estate professionals contribute to society.

WHY CHOOSE US?

"I love the real estate major at Virginia Tech because it's so easy to get involved with the number of opportunities that are offered! I found it extremely easy to do more with the major than just take classes, and I developed close relationships with the faculty along the way.
